MOTORcheckUP and FLUIDcheckUP

The Health Check for Engines and Operating Fluids

Benefits of MOTORcheckUP and FLUIDcheckUP for Garages:

MOTORcheckUP and FLUIDcheckUP are for car dealers, garages, automotive industry efficacy tool kit and instruments to prove the image, bind the clients and increase the turnover.

MOTORcheckUP and FLUIDcheckUP is the simple, safe and easy way to check all operating oil of their health state, functionality and the efficiency and determine the functionality of the engine, breaks, power steering, transmissions.

Only one drop of the fluids on the FLUIDcheckUP test sheet is needed for test and within minutes the evaluation can be done.

MOTORcheckUP takes longer because this oil spreads slower.

The patent of MOTORcheckUP and FLUIDcheckUP is granted in Europe and many other countries (USA, Russia, Canada, soon Japan, Korea, China) and tested by the well knows German TÜV-Süd. Daily many experts use the tests for their work, garages profit of the easy use and organisations recommend the tests. Sachverständigen und Organisationen eingesetzt und empfohlen.

Performances of MOTORcheckUP and FLUIDcheckUP

The tests check the health state of engines, the weariness and aging of break fluid, power steering and automatic and manual transmissions.
With this simple and illustrative test of fluids the client can see himself by comparing the test result with the reference charts. No explanation is in principle necessary and the client find out that here has to be a change of the fluids or a causes of the engine is visible already and specific maintenance or repairs are necessary (air filter, oil filter, change of oil, fuel pipes, spark plugs). For client's safety and to safe costs of repairs of the engines or components.

MOTORcheckUP and FLUIDcheckUP, a Benefit for Car Dealers
